

Product Overview

Safe n Simple focuses on product quality, patient safety, and cost containment. With the introduction of the Simpurity Silicone Foam wound care dressing we are proud to expand the Simpurity wound care product line. Simpurity wound care products follow evidence based medicine, facilitate moist wound healing and improve patient outcomes while lowering costs.

Simpurity Silicone Foam Dressing is a superior absorbent dressing for moderate to high wound exudate management. It contains a highly absorbent foam pad and gentle adhesive silicone contact layer. These dressings help maintain a moist wound healing environment with no irritation upon removal, minimizes trauma to the wound and reduces pain during dressing changes.

Simpurity Silicone Foam Dressings are available in 2"x2" and 4"x5" sizes.

Product Features

- Core silicone oil technology provides super gentle silicone contact layer for fragile skin
- Excellent wound exudate absorption, reduces the risk of maceration and leakage
- Pain free removal and reposition, no second dressing needed
- Customized shape design adapts to different requirements
- Maintains its integrity during use

Indications

Simpurity Silicone Foam Wound Dressings are indicated for the management of moderately-to-highly exuding wounds such as:

- Pressure ulcers
- Leg ulcers
- Non-infected diabetic foot ulcer
- Donor sites
- Skin abrasions
- Post-operative wound
- Lacerations and abrasions
